Project scope

Name:	REEMA JIYANI
Community (UN SD goal):	Goal 3: Ensure healthy lives and promote well-being for all at all ages
	Goal 17: Revitalize the global partnership for sustainable development
Date:	16/05/2021

Project Name	Mental Health Care Application
Project Deliverables	
Information Gathering [WBS 1.0]	**Deciding Goals to be focused:** First of all, I first read all the UN Sustainable goal and their purpose. After reading I decide to choose Health and well being as main goal and partnership as support goal for helping and improving community. **Finding Idea for project:** Then I decide to find idea which can help me to fulfill this goal and through this idea how can I help community. **Deciding north star customer:** In this WBS, I will decide which type of north star customer I can focus for my idea. **Target Community need:** Here I will try to find as much as detail by communicating with my target community so I can decide what they needed to improve their need.
Technology Requirement [WBS 2.0]	**Try to find easy technology to deliver my idea:** We know that every technology is best. But I have less time to provide minimum viable product. So I need technology which I can learn faster and give me quick result in terms of MVP. **Finding technical requirement:** In this WBS, I will try to make list of all the tools and platform which is use for my application.
Learning Technology [WBS 3.0]	**Finding help to learn:** In this WBS. I am making application first time so I will find related material and books and help from my friends to learn new technology
Preparing Documents [WBS 4.0]	**Prepare Project's document:** In this WBS, I will prepare all the document for project which is provide by professor so I can get good flow for starting my application from scratch.

Features [WMS 5.0]	**Making list of features:**
	In this WBS, I will think of features which help community to get knowledge and interaction with other community.
	Deciding workflow:
	Here, I will breakdown my work into parts so I can provide MVP1 to MVP3 delivery on time.

Project Exclusions

As for now, I am thinking we can add live feature in this application. In this feature people can share their personal YouTube video from their channel to motivate and entertain other members. This section will be update as project progress.
